Impactful Programs

Schools
In 2018, we created a new curriculum and delivery model for Typical or Troubled®. In 2019, we will train more APA members to become Certified Instructors, provide access to the curriculum for low-resourced school districts, and to develop Parent and Peer components to the program.

Justice
The Stepping Up Initiative has resulted in over 460 counties passing a resolution to address the overcriminalization of individuals with Serious Mental Illnesses. We will create a webinar series about ways psychiatrists can become involved and make an impact.

The Judges and Psychiatrists’ Leadership Initiative will develop new training and tools targeted at prosecutors. We will bring together thought leaders from across the country to address key issues surrounding the intersection of Criminal Justice and Mental Health.

Workplace
The Center for Workplace Mental Health helps connect employers to a wealth of high impact programs and resources dedicated to improving organizational climate and culture and the mental health and well-being of employees.

Community
Our community-based programs reach underserved groups through their faith leaders, medical students in their local schools, and local mental health experts and organizations. Our fellowships provide residents the training and professional development to be future leaders in the field of psychiatry.

As the charitable foundation of the American Psychiatric Association, we:

• Raise awareness and overcome barriers
• Invest in the future leaders of psychiatry
• Support research and training to improve mental health care
• Lead partnerships to address public challenges in mental health

When you make a gift to the Foundation, you make an investment to improve the lives of those impacted by mental illness - where you live, work, learn and worship.
